

School History

San Antonio Positive Solutions Inc. is a 501 (c)(3), non-profit organization which has for over 25 years, provided education and employment services to the youth in San Antonio and throughout Bexar County. Positive Solutions, Inc. evolved from a nationally affiliated organization, (7001, Ltd./WAVE Inc.), working to increase the employability and academic competencies of disadvantaged individuals by delivery of direct training and educational services. This progression coupled with the increased demand for educational services throughout the area resulted in the pursuit of a charter school designation for a high school to better serve the ever changing educational needs of our community.

Positive Solutions Inc. was granted its charter by the state of Texas in 1998 to operate Positive Solutions Charter School (PSHS). PSHS is fully accredited by the State and must meet all standards and requirements applicable to public schools in Texas. PSHS utilizes Edgenuity and traditional direct teach methods that allow individual instruction and accelerated learning for all students.
